

# Workshop "save-the-date" Invitation: GBIF Data Use and Application

The [Natural History Museum MaNa group](#) and [Norwegian Global Biodiversity Information Facility \(GBIF\)](#) node invite students, PhDs, postdocs, researchers and faculty to the University of Oslo for a 1-day workshop on **Tuesday, 22 October 2024**. More details to follow in the autumn!

This event is designed to assist your understanding of GBIF data usage and data citation.

## By the end of the workshop, you will:

- Know different ways to access GBIF data.
- Be familiar with standard cleaning procedures when using GBIF data.
- Understand the pros and cons of GBIF data usage (compared to other forms of data).
- Be able to properly cite GBIF data that has been accessed.

## Workshop Details

*Who Should Attend:* Students, MSs, PhDs, postdocs, researchers and faculty at the University of Oslo who are interested in utilizing GBIF data in their research or teaching. No prior experience with GBIF data is required.

*What to Bring:* A laptop, with R & RStudio installed.

*Prerequisites:* We'll work with R & RStudio during the workshop, but only a familiarity will be needed to follow along with the workshop material.

*Provisional Schedule and further information:* To come at a later date!
